Installation

Warning

Please disable or un-install the K-Lite Codec Pack if you have installed it on your computer, as it is known to produce bugs with the render of some videos.

Using the CD

- ✓ Please insert the CD into your CD drive.
- ✓ The installation manager will be launched - please wait.
- ✓ Answer to the different questions to your likings and press Next. Do not eject the CD while the manager is installing the game.
- ✓ You can eject the CD when the installation is finished. The game and the un-installer can be found under the Start menu.

Using Internet

- ✓ Please download the game under the DOWNLOAD section on our website.
- ✓ Double-click on the .EXE that you just downloaded.
- ✓ The installation manager will be launched - please wait.
- ✓ Please answer to the different questions to your likings and press Next.
- ✓ The game and the un-installer can be found under the Start menu.
